## OLYMPIC HISTORY ON STAMPS

This is one of my thematic stamp exhibits. It depicts Olympic history from 1896 to now, mostly focusing on Olympic medalists and events commemorated on stamps. The exhibit includes each Olympic event that has been commemorated on a stamp (or a souvenir sheet, or a cover, or another philatelic item) that I have in my collection.

Note that not every Olympic result is commemorated directly. Sometimes, an athlete wins a medal in a specific Olympic event, and there are no stamps (at least not in my collection) that would depict said achievement – yet said Olympian might be commemorated on other stamp(-s) that has(-ve) nothing to do with that event, or even that specific Olympiad. In that case, the medalist's name is *inscribed in Italics*. If all the medalists for a specific event are commemorated indirectly, the event name is also *inscribed in Italics*.

The exhibit consists of many sections, each one dedicated to a specific Olympiad. Within the Olympiad, exhibit is organized by a sport (in alphabetical order), and within a sport -- by a specific event. Normally, men's events precede women's ones. In the end of each section, some information on medal count winners for the depicted Olympiad is given.

Unlike my topical collections, this exhibit will probably never be "complete", but I will always try to make it better and more informative by acquiring more stamps and other philatelic items.

And, finally, here are the links to all the sections – from Summer Olympics 1896 to Winter Olympics 2018:
