SOCCER COMPETITIONS ON STAMPS

This is one of my thematic stamp exhibits. It only lists stamps (as well as souvenir sheets, covers and other philatelic items) that depict specific soccer games and competitions. The stamps with rather unimaginative subjects like soccer balls or children playing soccer are not included, for they have absolutely nothing to do with soccer history.

All the soccer-related events are presented in strict (wherever possible) chronological order, whether those are world championships, Olympic soccer tournaments or international friendlies. (In almost all instances, the medalists of each tournament, not commemorated on the stamps themselves, are noted in brackets). Note that the exhibit mostly focuses on official international competitions, but it includes other contests as well.

Due to a rather large volume, the exhibit is broken into several parts, each covering one decade:
